

FHS ATHLETIC/ACTIVITIES CODE

Because student athletes represent Fife High School, they bear a greater responsibility for appropriate behavior both during and after the school day. Adherence to this code begins with the first day of clearance for sports participation at Fife High School and extends through graduation. This code does not apply to summer months except when the student is actively practicing or participating in camps/programs where s/he is representing a Fife High School sports team. By electronically signing the code via Family ID, both parent and student acknowledge that they have received and reviewed the Fife High School Athletic Code and understand its expectations and consequences. To view the full version of the Athletic Code please refer to the current school year Student Handbook.
