

## Our Beliefs

To prepare wrestlers for competition and life we must continually challenge them to grow as athletes and people. Our counselors and clinicians are dedicated to providing instruction of winning techniques from all three primary positions.

In addition, our team of counselors will share with campers strategies in life that have made them successful. It is our belief that it is these strategies, coupled with sound fundamental wrestling, are what is needed to thrive and excel at the highest levels.

Our camp counselors and clinicians are at camp because of their character and ability to work with young people. Come ready to work with champions, like a champion and with a championship attitude.

Brian Alfi – Camp Director

Rob Zabel – Camp Director
